AI to suspend services to Washington from Sept 1

AIR INDIA WILL suspend flights between Delhi and Washington DC from September 1, mainly due to unavailability of multiple Boeing 787 Dreamliner planes as the legacy aircraft fleet is undergoing retrofit.

The Tata Group-owned airline, which currently operates five weekly flights from Delhi to Washington using the Dreamliner, on Monday said the decision has been taken on account of a combination of operational factors to ensure reliability of its overall route network.

The airline has commenced retrofitting 26 of its Boeing 787-8 aircraft last month.

"This extensive retrofit programme, aimed at significantly enhancing customer experience, necessitates a prolonged unavailability of multiple aircraft at any given time until at least end of 2026. That, coupled with the continued closure of airspace over Pakistan, impacts the airline's long-haul operations, leading to longer flight routings and increased operational complexity," Air India said in a statement.

Tesla rides into Delhi's Aerocity

NITIN KUMAR
New Delhi, August 11

TESLA ON MONDAY opened a showroom at Delhi's Aerocity, less than a month after making its India debut with an outlet in Mumbai. At its Delhi showroom, the company unveiled the Model Y, priced at ₹59.89 lakh (ex-

showroom). The Elon Musk-led EV giant announced that it plans to start deliveries in the country by September. The Aerocity site also features a Tesla charging station with four V4 supercharging stalls (DC) and three destination charging stalls (AC), offering customers multiple charging options.

Tesla Regional Director for South East Asia Isabel Fan said the company plans to install additional supercharging stations in Gurugram, Noida and Saket, alongside further expansion in Mumbai and Bengaluru. Tesla is also planning to open a showroom in Bengaluru. "The other new market, new states... We can-

not miss Bengaluru very soon," she said, adding, "we don't commit five-year plan that we cannot deliver. So whatever we share is a commitment in the upcoming (period)." Tesla will soon launch its mobile service, remote diagnostics, service centre and Tesla Approved Collision Centre in India.

Rapido food delivery pilot on hold

ANES HUSSAIN
Bengaluru, August 11

RAPIDO'S MUCH-ANTICIPATED entry into the food delivery market has been delayed beyond its planned pilot launch in July in Bengaluru, with sources close to the development citing procedural hurdles that the bike-taxi firm is still working to resolve.

The Bengaluru-based startup had initially set out a plan to pilot its food delivery platform 'Ownly' in the city, sometime in July, with a distinctive zero-commission flat delivery fee pricing structure that would differentiate it from established players Zomato and Swiggy. However, more than a month after the initial timeline, the pilot launch remains stalled. Industry insiders clarify that the delay does not stem from any disagreement with the National Restaurant Association of India (NRAI) over the pricing structure, but rather from procedural delays that could be linked to discussions around investor restructuring.

Swiggy has reportedly initiated a process of divesting its approximately 12% stake in Rapido, to avoid potential conflicts of interest. The three-month timeline for completing the stake sale could potentially influence when Rapido feels comfortable to launch its food delivery operations, one of the sources said.

Swiggy had led Rapido's \$180 million funding round in April 2022, investing around \$120 million when the ride-hailing company was valued at \$827 million. The investment was initially seen as strategic positioning in the mobility sector, but Rapido's expansion into food delivery has now created a conflict for Swiggy.

According to the finalised rate card agreed with NRAI, orders exceeding ₹400 would attract a delivery fee of ₹50, with an additional 18% GST, bringing the total to ₹59 — entirely paid by restaurant partners.
